

**RDM believes everyone has the right to a safe and healthy life.**

The 6th Annual RDM Golf Tournament supports WTLC in helping individuals and families escape the depths of domestic violence and exploitation. For over 43 years, WTLC has **Honored, Empowered, Restarted,** and helped survivors, families, and communities **Overcome** the impact of violence. Serving over **3,000** survivors of domestic violence and human trafficking annually through housing and supportive services, and empowering over **800** people to create safer and healthier communities through our prevention education programs, WTLC and our supporters are working toward ending the cycle of violence. Become a HERO and join us in the movement to create safer and healthier communities for all.

Because YOU believe everyone has the right to a safe and healthy life.

**Domestic Violence & Human Trafficking**

Domestic violence is not limited to physical violence, "DV" can also involve emotional, psychological, financial, spiritual, or sexual abuse by an intimate partner or family member. Because this crime encompasses such a wide variety of experiences, flexible services that can be tailored to each survivor's needs are crucial.

Human trafficking is defined as sexual exploitation, forced labor, or domestic servitude by means of force, fraud, or coercion. Orange County's status as a tourist destination contributes to the high concentration of individuals being exploited by sex and labor trafficking.

**WTLC's Services  
Bridge Housing**

Bridge Housing merges flexible shelter options with a range of supportive services that empower survivors to achieve and maintain safe and violence-free independent living. Emergency motel house a survivor and their family when the shelter is full; the emergency shelter provides a pet-friendly, apartment-style shared living environment for survivors who need to relocate immediately; and transitional and long-term housing options help ensure housing instability does not prevent a survivor from maintain their safety and stability.

**Supportive Services**

All of WTLC's supportive services are mobile, available to survivors in their own home, at WTLC's Center, or in a safe place in their community. While violence affects people of all backgrounds, WTLC primarily serves survivors with very limited resources, providing no-cost services including the provision of basic needs, case management, clinical and therapeutic services, legal advocacy, parenting classes, resource and referral assistance, and a children's program that helps address the trauma of living in a violent home.

**Prevention**

WTLC's education and advocacy program works to prevent violence before it occurs by providing the tools and knowledge to foster positive change throughout people's personal, business, and social lives. This program engages our youngest to our oldest community members and encourages them to use their voices to become leaders in the movement to create a violence-free world.
