LAGUNA BEACH

2396 CRESTVIEW DRIVE

ARCHITECTURAL MASTERPIECE

Recently designed by renowned architect Mark Singer, this architectural masterpiece embodies the best in modern design with an abundance of warm, organic materials from exposed concrete and Cumaru teak to copper and gorgeous stone detail. The open floor plan features cascading tiers which give way to breathtaking ocean vistas as far as the eye can see from nearly every location.

ENTERTAINER'S DREAM

Enter the four-bedroom, five-bath home through a dramatic street-level entry where you will see the spectacular spiral staircase, representative of a fine piece of art. Sliding glass provides easy access from indoor living spaces to the outdoor sanctuary for the ultimate in entertaining and relaxation.

LUXURIOUS FINISHES

A stunning fire feature separates the family room, dining area and kitchen/pantry combination which showcases rough-cut oak custom cabinetry, top-of-the-line appliances, white quartz counters, and skylights for an abundance of natural light.

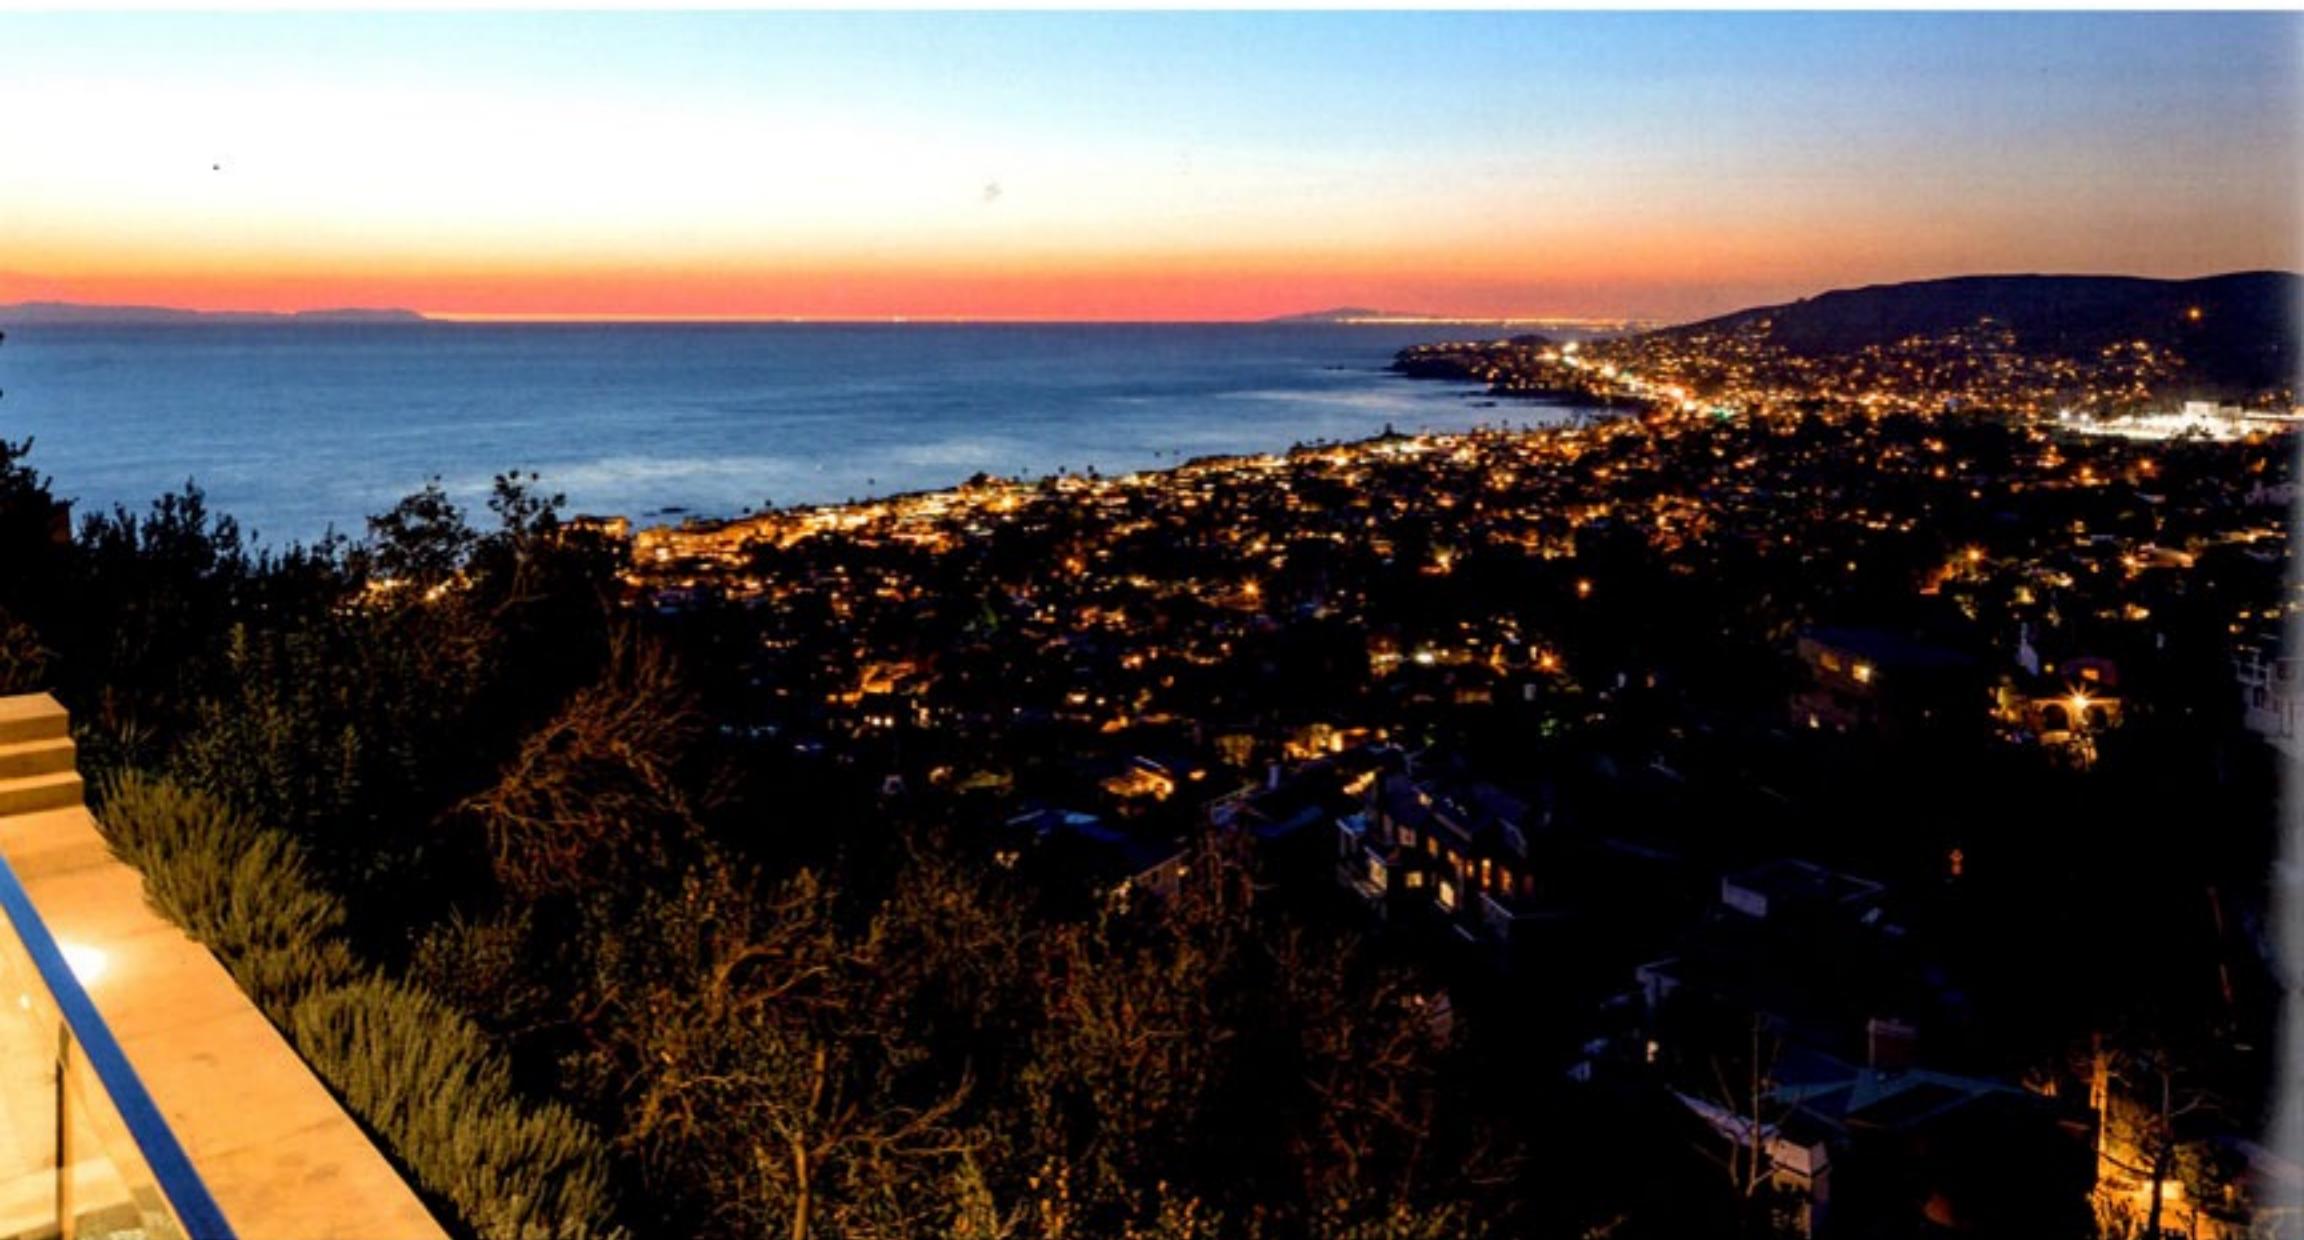

SPACIOUS SANCTUARY

Other highlights of this extraordinary Laguna Beach property include a sunken, secluded office space, professionally terraced landscaping, a three-car garage, and a resort-style master suite which opens to its own private Jacuzzi.
